## **NEWS ANNOUNCEMENT** ***For Immediate Release***

### **AKuCLICK™ FOR KINTERA® CONNECT**

**San Diego, CA – March 30, 2008** – Aqubanc, LLC of Buffalo Grove, a leading provider of check and form processing Systems for Gift Entry, Gift Processing and Donations Processing inside nonprofit organizations, today released AKuClick™, their first Kintera® Connect application.

AKuClick enables Kintera clients to use a Kodak page scanner with Aqubanc's Cheque 21® System to create an automated, cost-effective, in-house solution to process paper-based donations, gifts, checks, registrations, and the like. AKuClick enables Kintera clients to leverage the power of image technology to decrease data entry time and increase accuracy. AKuClick also underwrites the ability to store images electronically and link these images to the appropriate records in Kintera's donor management system.

AKuClick is available immediately with 5-year leasing to make entry easier for nonprofit organizations. The lease includes the Kodak Image Scanner System, a performance PC+LCD, software, maintenance and connection to Kintera's Gift Entry application. AKuClick can be implemented by Aqubanc® or Kintera consulting partners.

"AKuClick provides nonprofits with an easy system to decrease data entry error while enabling nonprofits to store valuable donor data in a single system," said Nick Rongione, director of application support for Kintera. "We are pleased to see Kintera Connect partners like Aqubanc using our open platform to build applications that address the integration challenges nonprofit organizations face."

“Once we solved ease of use, leasing provided an easy entry point for Kintera’s users,” states James Cowen, CEO of Aqubanc. “AKuClick lease includes maintenance for the entire lease period and can be expanded with faster higher-capacity Kodak scanners and upgraded to our Cheque 21® System for Kintera clients who need a check scanning solution too.”

### **About Aqubanc, LLC**

Aqubanc, LLC is exclusively and singularly focused on improving Gift Entry, Gift Receipting, Gift Processing and Donations Processing in nonprofit, charitable and 501(c) organizations. Aqubanc’s Cheque 21® Systems are installed throughout North America. Aqubanc’s ability to deliver products and methodologies are enabling nonprofits to significantly reduce costs while being able to better steward their resources.

### **Forward-Looking Statements**

*In addition to historical information, this press release contains forward-looking statements (including, without limitation, express or implied statements regarding the adoption of software solutions by nonprofit organizations) that involve risks and uncertainties. These forward-looking statements represent our estimates and assumptions only as of the date hereof. These statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. These statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. These risks and uncertainties include, without limitation: our limited operating history; our history of losses; our dependence on increased acceptance by nonprofit organizations of online fundraising; lengthy sales cycles for major customers; our need to manage growth; risks associated with accounting for and processing large amounts of donations; the rapidly changing technologies and market demands; and other risks identified in our filings with the Securities and Exchange Commission. Given these uncertainties, you should not place undue reliance on these forward-looking statements.*
